There is constant danger in an oily skin

A certain amount of oil in your skin is necessary to keep it smooth and supple.

But too much oil actually tends to promote an unhealthy condition. A skin that is too oily is constantly liable to infection from dust and dirt.

You can correct an oily skin by using each night the following simple treatment:

> FIRST cleanse your skin by washing in the usual way with Woodbury's Facial Soap and lukewarm water. Wipe off the surplus moisture, but leave the face slightly damp. Then, with warm water work up a heavy

RED PIMPLES ALL OVER FACE Burned and Itched. Cuticura Healed.

"My trouble began with pimples breaking out all over my face. They were hard and red though not very large. The pimples featered causing much burning and itching, and my face looked very badly. I used other remedies but they did me little or no good. I read an advertisement for Cuticura Soap and Ointment and decided to try them, and after using them about six weeks I was healed."
